

Slow Food[®] Berry to JB

BEE WORKSHOP SATURDAY 13TH JUNE 2026

On a lovely winter morning 20 members and friends went to 'Bee My Passion' in Tomerong to attend a workshop on bees. It was given by the delightful and highly knowledgeable Melinda, a third generation bee keeper who breeds bees and produces honey which is sold at local markets. She is passionate about bees and their importance in society. We learned how they lived, foraged for nectar, and defended themselves from disease and predators. This was followed by a tasting of 4 of her honeys and a splendid morning tea featuring a delicious Bee Sting Cake. Afterwards we decamped to Huskisson for lunch at Club Jervis Bay overlooking the water.

A most enjoyable and highly informative visit.
